

Point of Sale and Service Counters Assistance Requests at the Press of a Button

The CB514 enables cashiers to instantly and discreetly summon assistance with the quick press of a button. If assistance is not prompt, urgent escalation messages route to the same and/or other store personnel.

Rugged, compact and completely wireless, the CB514 readily mounts anywhere. It can even trigger recorded promotional messages such as: "The Bakery department is now offering fresh hot bread straight from the oven".
